FANTASTIC

TRANSPORT & CONTRACTING
& GEN. MAINTENANCE

We undertake Earth work, Road work
Excavation work & Transportation
Supply Materials (Gatch, Crush Sand,
Stone Etc..)

EARTH
ROAD

EARTH WORKS

Move or process of parts of the earth's surface involving quantities of soil or unformed rock. The earth may be moved to another location and formed into a desired shape for a purpose.

Much of earthworks involves machine excavation and fill or backfill.

ROAD WORKS

Roadworks occur when part of the road, or in rare cases, the entire road, has to be occupied for work relating to the road, most often in the case of road surface repairs.

EXCAVATION

Excavation describes the controlled exploration of what lies below the surface, normally carried out systematically in gridded trenches with trowel and shovel. It is a slow and tedious work that involves digging a centimetre at a time, but can also be difficult, backbreaking, toil, shovelling through metres of densely packed

We Rent & Lease

Compact excavator
Dragline excavator
Dredging
Excavator (wheel)
Excavator (bagger,
digger)
Front shovel
Reclaimer
Steam shovel

Suction excavator
Trencher (machine)
Yarder
Dozer
Wheel Loader
Hydraulic Excavator
Vibratory Compactor
Roller
Road Paver
